PROFESSIONAL SUMMARIES

SQA Engineer experienced in web application testing and Playwright automation across Sprouto and Brandably. Built a scalable automation framework from scratch with 700+ tests across 25 test files using POM, fixtures and reusable architecture. Full-stack development background with React, Next.js, Node.js, PostgreSQL and Supabase.

WORK EXPERIENCE

SQA Engineer Aug '26 — Present
Sprouto Lahore, Pakistan

Perform QA across Sprouto and Brandably projects, covering functional, regression, smoke, sanity, exploratory, UI, responsive, role/permission, edge-case, negative and form-validation testing.

Test features across staging, pre-release and production environments, including retesting fixes and verifying completed functionality.

Create and maintain test documentation, QA reports and issue findings; track issues through resolution and coordinate with developers and relevant team members.

Test complex business workflows including calendars, property management, contractor assignment, content matching and other application functionality.

Perform web performance checks and accessibility-related testing using browser and automated testing tools.

Build a Playwright automation framework from scratch for Sprouto, with a focus on maintainable and scalable test architecture.

Junior MERN Stack Developer Apr '26 — Aug '26
Brandably Lahore, Pakistan

Performed extensive functional and regression testing alongside development for a live B2B e-commerce platform.

Tested complex product functionality including filters, product variants, related data/junctions and wishlist workflows across multiple scenarios.

Built a Playwright automation framework from scratch, using Page Object Model, fixtures, data-testid selectors, role-based coverage and reusable test architecture.

Developed and maintained 700+ automated tests across 25 test files, including functional and user-flow coverage.

MERN Stack Intern Dec '25 — Mar '26
Sprouto Lahore, Pakistan

Contributed to a B2B e-commerce platform using Next.js and PostgreSQL.

Assisted with feature development and responsive UI implementation.

Supported functional testing, debugging and verification of application features.

Trainee Web Developer Jun '23 — Jul '24
SeeBiz Pvt. Ltd. Lahore, Pakistan

Built responsive web pages using HTML, CSS and Bootstrap.

Developed REST APIs with Express.js and MongoDB, including CRUD functionality.

Implemented middleware for validation, logging and error handling.

Tested and debugged Node.js applications locally.
